The Ancient Art of War®

The world's greatest generals send you an armed invitation.

How would you like to personally lead an army into battle

Macintosh screen

against the great Genghis Khan? Or try to outfox that master military strategist, Alexander the Great? Now you can pit your own intelligence and skills against eight of the most brilliant military minds in history. The Ancient Art of War lets you plan and carry out military campaigns right down to the last detail...while your enemy conducts a historically authentic campaign against you.

Choose your own armies, weapons, battle formations. Then begin making your decisions — to attack the enemy directly, cut off his supply lines, or take him by surprise. Using detailed maps, you can replay any of 11 historical and fictitious battles. Or you can create your own campaigns with thousands of variations, guaranteeing that this program will never end up at the back of your diskette tray.

When you think you're ready, try challenging the legendary Sun Tzu, the ancient Chinese general who literally wrote the book on war. It will be an experience you won't soon forget.

As you send your men racing to their battle stations, you'll be planning your defensive strategy with lightning speed. Your enemy: any one of five of the world's most brilliant naval commanders, including the bloodthirsty pirate Blackbeard, the "Yankee Pirate" John Paul Jones, and the legendary Admiral Lord Nelson. Your mission: To sink his ships before he sinks yours.

The Ancient Art of War at Sea combines real-time excitement with the intellectual challenge of leading a navy into victory on the high seas. You can zoom in to take command of individual ships, and lead the boarding parties as you engage in hand-to-hand combat on enemy "territory."
